Quality of
Education/Training

Embedding Quality of teaching/learning in the institution

Embedding quality of teaching and learning in the institution

– How ?

Manager Guideline

- ▶ Research phase
 - ▶ Literature analysis
 - ▶ Focus groups in all countries
 - ▶ Positive examples

- ▶ Main findings → manager guideline

Challenges

Teaching/training = Professional activity –
autonomy

Legal situation, contracts

Resources und working conditions

Professional culture &
pedagogical training of teachers

Accountability-oriented QM

among teachers

Professional
development

Quality Culture
Quality Management

Quality Management & Culture

- ▶ Teaching and learning = key process
- ▶ Evidence based
 - ▶ „mixed methods“ of data collection/evaluation
 - ▶ Data → action (PDCA)
- ▶ Living a quality culture
 - ▶ Development oriented
 - ▶ Trying out new approaches
 - ▶ top-down & bottom-up
 - ▶ Open communication
 - ▶ Constructive feedback

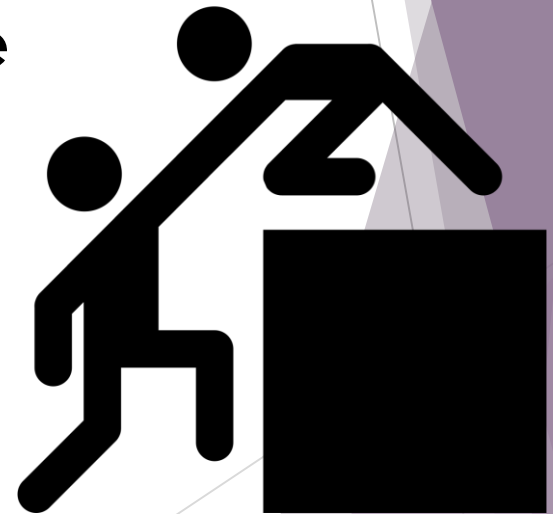

Personnel development

► Contents:

- Didactical/pedagogical competences
- Methods for quality development

► Formats: linked to work practice

- Trainings, seminars, workshops
- Feedback from peers and experts
- Coaching, supervision
- Intervention, Mentoring

Cooperation among teachers/trainers

- ▶ Exchange
- ▶ Peer Feedback, observations
- ▶ Intervention, collegial supervision
- ▶ Mentoring
- ▶ Team Teaching

Other support and resources

- ▶ conferences, Workshops, meetings
- ▶ Electronic and e-learning platforms

Tip 1

Feedback: build competences

Competences to give
and receive feedback

Respect feedback
rules

Tip 2

making more of the feedback

- ▶ Enhance quality of questionnaires (relevance, technical quality, logistics)
- ▶ Sensible administration
- ▶ Acting upon results
- ▶ Use different forms of feedback

Thank you for your attention!
